

Corona-Schooling around the Globe

With the Corona-Virus affecting many lives across the globe, it would be cool to collect some impressions around the globe. The KidsLab Podcast already published more than 20 episodes and interviewees come from all over the world. It would be great to learn from all these experiences, especially the positive and encouraging ones that other parts of the world can learn from. **Let's try to get something out of this situation!**

Please record a short audio snippet via <https://online-voice-recorder.com/> and send me the downloaded mp3 via E-Mail (or share via Dropbox, Google Drive, etc.). Here are the questions, but feel free to go off-script!

Who are you & what do you do? Teacher, Parent, Educator, Author, etc.

- Maybe also a quick plug to the episode you recorded or will record for the KidsLab Podcast?

Can you describe how the Corona-Virus and the resulting measures are affecting you?

- If you are a teacher, what does it mean for your "teaching"?
- If you are a parent with kids, how does your day with the kids look like?

Have you, your school or even your kids come up with innovative solutions for "remote school"? Please describe these solutions.

- Please send me links to these tools via E-Mail
- How are you staying in touch (kids-teachers, kids-kids)?
- How are you distributing work to the kids?
- How are you explaining / helping kids remotely?

Anything else you want to tell to the world during these times?

- Go off-script, have fun!
